

BEYMA

www.beyma.com

Beyma has done a complete redesign of its website with the aim of offering its customers an updated and practical area, specially designed to offer the best service to users and customers. This new version includes numerous novelties and improvements in design, navigation and content. Design is totally focused on the user: the new website offers a new structure of information to facilitate fluent consults. The search engine has been substantially improved. In addition to the previous product search, a function has been added to search by type of product so that the customer can find the speaker that better suits their needs taking into account the main parameters. These and many other novelties are designed to satisfy the increasingly demanding and expectations of our users and customers. Nevertheless, Beyma considers its website, a tool in constant evolution, always open to new improvements. In this regard, the opinion of our partners are essential to help us to improve.
