power amplifiers. 'This year's event is much better than last year, mainly due to a large increase in the number of visitors,' reported Chen Feng.

JTS distributor Guangzhou Liyun Acoustic Equipment brought wired and wireless conferencing systems, wireless tour guide and professional microphones to the show. UHF PLL wireless systems for musical instruments were also introduced and displayed separately. In addition, the **Alesis** TGM and SGM small-format mixers were on the booth.

Spanish manufacturer **Beyma** displayed various loudspeaker drivers, the latest being the PM4 compression driver. Deng Hanbo, the technical director of GZ office said: 'We not only have expertise, we are also the strategic partner and supplier to world-class reference speaker systems. Our current line is up to 180 products and we also deliver good after-sales services.'

A&D Audio and **Hipower Audio** from China were also on the show, while Hong Kong-based **Fidek Audio** drew a lot of attention with its NC, VGS and OL series of professional speakers and BL and ABL series of portable speakers. The latest FDA amplifier products were also unveiled. 'Fidek has a wide range of products, from professional speakers, amplifiers,
